date of issue: 20.09.2023

VERSION: 1.0/EN

Coving Mortar ES Component A

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

1 SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

1.1 Product identifier

Coving Mortar ES Component A UFI: 3820-30R8-M00W-1W68

1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses Curing Agent

SU3 Industrial uses: Uses of substances as such or in preparations at industrial sites

SU 22 Professional uses: Public domain (administration, education, entertainment, services, craftsmen)

Uses advised against:. Other than those indicated in the identified use

1.3 Details of the supplier of the safety data sheet Eurostep Poland Sp. z o.o.

95-054 Ksawerów

ul. Tymiankowa 37/39; Poland

Tel.: +48 609 222 050

eurostep.pl

Product technical information: info@eurostep.pl

1.4 Emergency telephone number

Nationwide emergency telephones (Mon-Fri 8:00 - 16:00): (+48) (42) 235-28-88

112 (emergency telephone number)

2 SECTION 2: HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture

Classification according to Regulation (EC) No 1272/2008

Physical and chemical hazards:

This mixture does not present a physical hazard.

Health hazards

Serious eye damage/eye irritation, Hazard Category 2 [Eye Irrit. 2]

Causes serious eye irritation (H319)

Skin corrosion/irritation, Hazard Category 2 [Skin Irrit. 2]

Causes skin irritation (H315)

Sensitisation Skin, Hazard Category 1 [Skin Sens.1]

date of issue: 20.09.2023

VERSION: 1.0/EN

Coving Mortar ES Component A

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

May cause an allergic skin reaction.(H317)

Environmental hazards:

Hazardous to the aquatic environment - Chronic Hazard, Category 3 [Aquatic Chronic 3]

Harmful to aquatic life with long lasting effects. (H412)

2.2 Label elements

Labelling according Regulation (EC) No 1272/2008

Pictogram

GHS07

Signal word: Warning

Substances which influenced classification

bis-[4-(2,3-epoxipropoxi)phenyl]propane

Oxirane, mono[(C12-14-alkyloxy)methyl] derivs.

Reaction mass of 2,2'-[methylenebis(4,1-phenyleneoxymethylene)]dioxirane and [2-({ 2-[4-(oxiran-2-ylmethoxy)benzyl]phenoxy} methyl)oxirane and [2,2'-[methylenebis(2,1-phenyleneoxymethylene)]dioxirane

Hazard statement(s)

H319 Causes serious eye irritation.

H317 May cause an allergic skin reaction

H315 Causes skin irritation.

H412 Harmful to aquatic life with long lasting effects

Precautionary statement(s):

Prevention

P264 Wash hands thoroughly after handling

P261 Avoid breathing dust

P280 Wear protective gloves/protective clothing/eye protection/face protection

Response

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

P302 + P352 IF ON SKIN: Wash with plenty of water

Disposa

P501 Dispose of contents/ container to an approved waste disposal plant

2.3 Other_hazards

The substances contained in the product do not meet criteria for PBT or vPvB in accordance with Annex XIII of REACH Regulation.

The substance has not been included in the list established in accordance with Article 59 (1) for having endocrine disrupting properties, or as substance identified as having endocrine disrupting properties in accordance with the criteria set out in Commission Delegated Regulation (EU) 2017/2100 (3) or Commission Regulation (EU) 2018/605.

3 SECTION 3: COMPOSITION / INFORMATION ON INGREDIENTS

3.1 Substances:

Not applicable

date of issue: 20.09.2023

[1] Substance with national exposure limit in the workplace

Full H phrases are specified in point 16 hereof.

4 SECTION 4: FIRST AID MEASURES

4.1 Description of first aid measures

If inhaled: Take the victim out of the exposure area, place them in a comfortable half-sitting or lying

position, provide calm and protect against heat loss. If needed, seek medical help

In case of skin contact: Remove contaminated clothing. Wash the affected area with plenty of water, preferably

lukewarm. If skin irritation persists, seek medical help c

In case of eye contact: Rinse immediately with plenty of cool, running water and continue rinsing for at least 15

minutes. Remove contact lenses. Do not use heavy streams of water to avoid cornea

damage. If the irritation persists, consult an eye-doctor.

If swallowed: If product is swallowed or gets in mouth, do NOT induce vomiting; wash mouth with water

and give some water to drink. If symptoms develop, or if in doubt contact a Poisons

Information Centre or a doctor.

4.2 Most important symptoms and effects, both acute and delayed

Contact with skin: Causes skin irritation. May cause an allergic skin reaction

date of issue: 20.09.2023

VERSION: 1.0/EN

Coving Mortar ES Component A

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

Eye contact: Causes serious eye irritation Possible redness, tearing, temporary irritation.

Ingestion: Possible abdominal pain, nausea, vomiting

Inhalation: May cause respiratory irritation

4.3 Indication of any immediate medical attention and special treatment needed

Physician makes a decision regarding further medical treatment after thoroughly examination of the injured. Treat symptomatically

5 SECTION 5: FIREFIGHTING MEASURES

5.1 Extinguishing media

Suitable extinguishing media:

Co-ordinate fire-fighting measures to the fire surroundings water spray, foam, dry extinguishing powder, carbon dioxide (CO2)

Unsuitable extinguishing media:

let water

5.2 Special hazards arising from the substance or mixture

During the fire, the product may produce harmful gases. Do not inhale combustion products, they can be dangerous for human health

5.3 Advice for firefighters

Personal protection typical in case of fire. Do not stay in the fire zone without self-contained breathing apparatus and protective clothing resistant to chemicals. Do not let extinguishing water to reach drainage system, surface water and groundwater. Collect used extinguishing media.

6 SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

<u>For non-emergency personnel</u>: Limit the access for the outsiders into the breakdown area, until the suitable cleaning operations are completed. Ensure that the effects of breakdown are removed only by trained personnel. In case of large spills, isolate the exposed area. Avoid eyes contact and prolonged skin contact. Do not inhale vapours. Ensure adequate ventilation. Use personal protective equipment.

<u>For emergency responders</u>: ensure that only the trained personnel removes the effects of the accident. Use personal protective measures.

6.2 Environmental precautions

In case of release of large amounts of the mixture, it is necessary to take appropriate steps to prevent it from spreading into the environment. Do not let the product to get to the sewage system. Notify relevant emergency services.

6.3 Methods and material for containment and cleaning up

Collect mechanically, avoiding dust formation. Treat the collected material as waste or reuse it. Clean and ventilate the affected area

6.4 Reference to other sections

Personal protective equipment: see section 8. Incompatible materials: see section 10. Disposal considerations: see section 13.

7 SECTION 7: HANDLING AND STORAGE

7.1 Precautions for safe handling

Handle in accordance with good occupational hygiene and safety practices. Use only as intended. In case of rubbing or friction, accumulation of electrostatic charges may occur. Accumulated electric charge can be transferred to the user and may be a source of ignition - use extreme caution when working with flammable materials.

date of issue: 20.09.2023

VERSION: 1.0/EN

Coving Mortar ES Component A

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

7.2 Conditions for safe storage, including any incompatibilities

Store only in a cool and dry place at the recommended storage temperature. Keep away from sources of ignition and heat. Do not smoke, use open flames or sparking devices in the warehouse. Do not store with incompatible materials (section 10.5). Keep away from food, drink and animal feed.

7.3 Specific end use(s)

No information on applications other than those listed in subsection 1.2.

8 SECTION 8: EXPOSURE CONTROLS/ PERSONAL PROTECTION

8.1 Control parameters

Quartz [14808-60-7	7]				
	Limit value	- Eight hours	Limit value	e - Short term

The Netherlands		0,075 respira	ble dust		

Remarks:

Austria (1) MAK value (2) Respirable fraction

Finland (1) Respirable fraction

France Bold type: Restrictive statutory limit values

Ireland (1) Respirable fraction

Norway (1) Total dust (2) Respirable fraction

Poland (1) Respirable fraction

Spain (1) Respirable fraction

Sweden(1) Respirable fraction

Recommended monitoring procedures

Procedures shall be in place to monitor the air concentrations of hazardous components and, where available and justified at the workplace, to control the cleanliness of air in the workplace in accordance with relevant Polish or European Standards, taking into account the conditions at the exposure site and the appropriate measurement methodology adapted to the working conditions. The mode, type and frequency of tests and measurements should meet the requirements of the Ordinance of the Minister of Health of 2 February 2011 (OJ No. 33, item 166).

8.2 Exposure controls

8.2.1 Appropriate engineering controls

Use the product in accordance with good occupational hygiene and safety practices. When handling do not eat, drink or smoke. Before break and after work wash hands carefully. Avoid eye contamination and prolonged skin contact. Do not inhale vapors. Ensure adequate ventilation in order to maintain the concentration of harmful factors below the limit values

date of issue: 20.09.2023

VERSION: 1.0/EN

Coving Mortar ES Component A

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

8.2.2 Individual protection measures, such as personal protective equipment

Hand and body protection

Use gloves resistant to chemicals. Recommended glove [nitrile rubber] In case of short-term exposure wear the protective gloves with protection level 2 or higher (breakthrough time > 30 min). In case of long-term exposure wear the protective gloves with protection level 6 (breakthrough time > 480 min). Wear protective clothing and shoes – resistant to chemicals

When using protective gloves during work with chemical products, it should be noted that the efficacy levels and corresponding breakthrough times do not indicate actual times of protection at a particular workplace, because the protection can be affected by many factors, e.g. temperature, other substances etc. If there are any signs of degradation, damage or change in appearance (colour, flexibility, shape), it is recommended to replace the gloves with a new pair. Please follow the manufacturer's instructions, not only in terms of gloves' usage, but also in terms of their cleaning, maintenance and storage. It is also important to know how to take off the gloves in order to avoid hands contamination.

Eye/face protection

Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: chemical splash goggles.

Respiratory protection:

Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use

Personal protective equipment must meet requirements of directive 89/686/CE. Employer is obliged to ensure equipment adequate to activities carried out, with quality demands, cleaning and maintenance

8.3 Environmental exposure controls

Avoid release to the environment, do not enter the sewage system. Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation

9 SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

Physical state: Colour: Dark yellow Odour: Characteristic Melting point/freezing point: Not available Boiling point or initial boiling point and boiling range: Not available Flammability: Not available Lower and upper explosion limit: Not available Flash point: Not available Auto-ignition temperature: Not available Decomposition temperature: Not available pH: Not available

Kinematic viscosity:

Not applicable [solid]

Solubility:

Partition coefficient n-octanol/water (log value):

Vapour pressure:

Density and/or relative density:

Relative vapour density:

Not available

Particle characteristics:

Not available

Not available

9.2 Other information

9.2.1 Information with regard to physical hazard classes

Information unavailable

date of issue: 20.09.2023

VERSION: 1.0/EN

Coving Mortar ES Component A

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

9.2.2 Other safety characteristics

Information unavailable

10 SECTION 10: STABILITY AND REACTIVITY

10.1 Reactivity

No reactivity under recommended storage and handling conditions.

10.2 Chemical stability

Stable under recommended storage and usage conditions.

10.3 Possibility of hazardous reactions

Stable under normal conditions of use and storage

10.4 Conditions to avoid

Extremely high or low temperatures, humidity

10.5 Incompatible materials

Strong oxidizing agents

10.6 Hazardous decomposition products

Depending on the decomposition conditions, complex mixtures of chemical substances can be released: carbon dioxide (CO2), carbon monoxide and other organic compounds. Reference to other sections: 5.2.

11 SECTION 11: TOXICOLOGICAL INFORMATION

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008 Toxicity of components

bis-[4-(2,3-epoxipropoxi)phenyl]propane

LD50 Dermal Rat > 15000 mg/kg -

LD50 Oral Rat >2000 mg/kg

 $\frac{Reaction \quad mass \quad of \quad 2,2'-[methylenebis(4,1-phenyleneoxymethylene)]dioxirane \quad and \quad [2-(\{\quad 2-[4-(oxiran-2-ylmethoxy)benzyl]phenoxy\} \quad methyl)oxirane \quad and \quad [2,2'-[methylenebis(2,1-phenyleneoxymethylene)]dioxirane \quad and \quad [2,2'-[methylenebis(2,1-phenyleneoxymeth$

LD50 Dermal Rat >5000 mg/kg -

LD50 Oral Rat >2000 mg/kg

Toxicity of mixture

ATE MIX oral (mg / kg): >2000. The mixture does not contain substances classified in this hazard class.

ATE MIX dermal (mg/kg): >2000. The mixture does not contain substances classified in this hazard class.

ATE MIX inhalation (mg / I / 4h)dust/mist: >5. The mixture does not contain substances classified in this hazard class.

*ATEmix value was calculated using relevant converted acute toxicity point estimate included in 3.1.2 table from Regulation 1272/2008/EC

Skin corrosion/irritation:

Causes skin irritation

Serious eye damage/irritation:

Causes serious eye irritation

Respiratory or skin sensitisation

May cause an allergic skin reaction

Germ cell mutagenicity

Based on available information, classification criteria are not met.

<u>Carcinogenicity</u>

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.

Reproductive toxicity

Based on available information, classification criteria are not met.

date of issue: 20.09.2023

VERSION: 1.0/EN

Coving Mortar ES Component A

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

STOT-single exposure:

Based on available information, classification criteria are not met.

STOT-repeated exposure;

Based on available information, classification criteria are not met.

Aspiration hazard

Based on available information, classification criteria are not met.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Contact with skin: Causes skin irritation. May cause an allergic skin reaction

Eye contact: Causes serious eye irritation Possible redness, tearing, temporary irritation.

Ingestion: Possible abdominal pain, nausea, vomiting

Inhalation: May cause respiratory irritation

11.2 Information on other hazards

11.2.1 Endocrine disrupting properties

The components of the mixture do not affect the functioning of the hormonal system in accordance with the evaluation criteria defined in the Regulations: (EC) No 1907/2006, (EU) 2017/2100, (EU) 2018/605

11.2.2 Other information

Not applicable to substances

12 SECTION 12: ECOLOGICAL INFORMATION

12.1 Toxicity

Toxicity of mixture

Harmful to aquatic life with long lasting effects.

In order to minimise long-term global pollution, this should be considered:

- Reducing the use of products and disposable packaging.
- Participation in recycling activities
- Do not allow product to enter water, sewage or soil

12.2 Persistence and degradability

No data available

12.3 Bioaccumulative potential

No data available

12.4 Mobility in soil

The mobility of the substance depends on their hydrophilic and hydrophobic properties and abiotic and biotic conditions of soil, including its structures, climatic conditions, seasons (in Poland, in a variable moderate climate) and soil organisms, mainly (bacteria, fungi, algae, invertebrates).

12.5 Results of PBT and vPvB assessment

PBT/vPvB assessment not available as chemical safety assessment not required/not conducted.

12.6 Endocrine disrupting properties

The product shall not contain ingredients included on the list established in accordance with Article 59(1) as having endocrine disrupting properties or ingredients with endocrine disrupting properties according to the criteria laid down in Regulation 2017/2100/EU or Regulation 2018/605/EU in concentrations equal to or greater than 0.1%.

12.7 Other adverse effects

The mixture is not classified as hazardous to the ozone layer. There should be considered the possibility of other harmful effects of the individual components of the mixture on the environment. (eg. the ability of disrupting endocrine, the impact of global warming potential).

13 SECTION 13: DISPOSAL CONSIDERATIONS

date of issue: 20.09.2023

VERSION: 1.0/EN

Coving Mortar ES Component A

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

13.1 Waste treatment methods

<u>Disposal methods for the product:</u> dispose in accordance with applicable regulations. Do not introduce into drains. Residues store in sealed, steel containers.

<u>Disposal methods for used packing</u>: reuse/recycle/eliminate empty containers in accordance with the local legislation. Only completely emptied packaging can be recycled.

Legal basis: Directive 2008/98/EC, 94/62/EC.

14 SECTION 14: TRANSPORT INFORMATION

14.1 UN number or ID number

Not applicable, product is not classified as hazardous during transport.

14.2 UN proper shipping name

Not applicable

14.3 Transport hazard class (es)

Not applicable

14.4 Packing group

Not applicable

14.5 Environmental hazards

ADR/RID/IMDG/IATA: Product is not classified as dangerous for the environment in accordance with transport regulations

14.6 Special precautions for user

Not applicable

14.7 Maritime transport in bulk according to IMO instruments

The cargo is not intended to be carried in bulk.

15 SECTION 15: REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

Other legislation:

- 1. **1272/2008/EC** of the Regulation of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures amending and repealing Directive 67/548/EEC and 1999/45/EC, and Regulation (EC) No 1907/2006.
- 2. **2018/669/UE** Commission Regulation (EU) 2018/669 of 16 April 2018 amending, for the purposes of its adaptation to technical and scientific progress, Regulation (EC) No 1272/2008 of the European Parliament and of the Council on classification, labelling and packaging of substances and mixtures Text with EEA relevance.
- 3. **790/2009/EC** of 10 August 2009 amending, for the purposes of its adaptation to technical and scientific progress, Regulation (EC) No 1272/2008 of the European Parliament and of the Council on classification, labelling and packaging of substances and mixtures.
- 4. **2008/98/EC** Directive of the European Parliament and of the Council of 19 November 2008 on waste and repealing certain Directives
- 5. **94/62/EC** Commission Directive 2013/2/EU of 7 February 2013;amending Annex I to Directive 94/62/EC of the European Parliament and of the Council on packaging and packaging waste
- 6. **2015/830/EU** Commission Regulation (EU) 2015/830 of 28 May 2015 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

15.2 Chemical safety assessment

The supplier has not assessed chemical safety It is not required for the mixture.

date of issue: 20.09.2023

VERSION: 1.0/EN

Coving Mortar ES Component A

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

16 SECTION 16: OTHER INFORMATION

Other sources of information:

IUCLID Data Bank (European Commission – European Chemicals Bureau). ESIS – European Chemical Substances Information System (European Chemicals Bureau).

Safety Data Sheet made by: mgr Małgorzata Krenke; Feed Reach Consulting" www.frc.com.pl Disclaimer

The information above is based on a current available data concerning the product, but also on the experience and knowledge in this field of the producer. They are neither a quality description of the product nor a guarantee of particular features. They are to be treated as aid to safety in transport, storage and usage of the product. That does not free the user from the responsibility of improper usage of the information above and also of improper compliance with the law norms in the field

Classification according to Regulation (EC) No 1272/2008		
Skin Sens 1	H317	calculation method
Aquatic Chronic 3	H412	calculation method
Skin Irrit. 2	H315	calculation method
Eye Irrit. 2	H319	calculation method

H (hazard) phrases specified in point 2 and 3 hereof:

H317	May cause an allergic skin reaction
Skin Sens. 1	Sensitisation — Skin, hazard category 1, 1A, 1B
H412	Harmful to aquatic life with long lasting effects
Aquatic Chronic 3	Hazardous to the aquatic environment — Chronic Hazard, Category 3
H315	Causes skin irritation
Skin Irrit. 2	Skin corrosion/irritation, Hazard Category 2
H319	Causes serious eye irritation.
Eye Irrit. 2	Serious eye damage/eye irritation, Hazard Category 2
H411	Toxic to aquatic life with long lasting effects
Aquatic Chronic 2	Hazardous to the aquatic environment — Chronic Hazard, Category 2

Training

Prior to working with the product you should be familiar with safety rules for handling the chemicals, in particular take proper workplace training.
