### **Coving Mortar ES Component B**

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

# 1 SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING

#### 1.1 Product identifier Coving Mortar ES Component B UFI: Q520-M01V-A00E-CJM6

#### **1.2** Relevant identified uses of the substance or mixture and uses advised against Identified uses Curing Agent

SU3 Industrial uses: Uses of substances as such or in preparations at industrial sites SU 22 Professional uses: Public domain (administration, education, entertainment, services, craftsmen) <u>Uses advised against</u>:. Other than those indicated in the identified use

#### **1.3** Details of the supplier of the safety data sheet

Eurostep Poland Sp. z o.o.

95-054 Ksawerów

ul. Tymiankowa 37/39; Poland

Tel.: +48 609 222 050

eurostep.pl

Product technical information: info@eurostep.pl

#### 1.4 Emergency telephone number

#### Nationwide emergency telephones (Mon-Fri 8:00 – 16:00): (+48) (42) 235-28-88

#### 2 SECTION 2: HAZARDS IDENTIFICATION

2.1 Classification of the substance or mixture Classification according to Regulation (EC) No 1272/2008 Physical and chemical hazards: This mixture does not present a physical hazard. Health hazards Acute toxicity (oral), Hazard Category 4 [Acute. Tox 4] Harmful if swallowed (H302)
Skin corrosion/irritation, Hazard Category 1A, 1B, 1C[Skin Corr. 1B ] Causes severe skin burns and eye damage. (H314) Serious eye damage/eye irritation, (Category 1) [Eye Dam 1]

Page <u>2 /13</u>

[1] Substance with national exposure limit in the workplace

Full H phrases are specified in point 16 hereof.

#### 4 SECTION 4: FIRST AID MEASURES

#### 4.1 Description of first aid measures

If inhaled:

In case of skin contact:

Take the victim out of the exposure area, place them in a comfortable half-sitting or lying position, provide calm and protect against heat loss. If needed, seek medical help Remove contaminated clothing. Wash the affected area with plenty of water, preferably lukewarm. If skin irritation persists, seek medical help c

#### date of issue: 20.09.2023

VERSION: 1.0/EN

### **Coving Mortar ES Component B**

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

	In case of eye contact:	Rinse immediately with plenty of cool, running water and continue rinsing for at least 15 minutes. Remove contact lenses. Do not use heavy streams of water to avoid cornea damage. If the irritation persists, consult an eye-doctor.
	If swallowed:	If product is swallowed or gets in mouth, do NOT induce vomiting; wash mouth with water and give some water to drink. If symptoms develop, or if in doubt contact a Poisons Information Centre or a doctor.
4.2	Most important symp	ptoms and effects, both acute and delayed
	Contact with skin:	Redness, pain, severe burns, tissue necrosis. May cause an allergic skin reaction
	Contact with eye:	Serious burns, cornea and conjunctiva damage leading to irreversible vision loss and even blindness.
	Ingestion:	Harmful if swallowed Causes severe burns of the mouth, throat, stomach, severe gastrointestinal tissue damage (risk of perforation) can lead to death. Symptoms: severe pain, vomiting, diarrhea, low blood pressure, symptoms of damage can occur several days after exposure
	Inhalation:	Causes serious damage to the upper respiratory tract, burns, possible chemical pneumonitis and pulmonary oedema.

#### 4.3 Indication of any immediate medical attention and special treatment needed

Physician makes a decision regarding further medical treatment after thoroughly examination of the injured. Treat symptomatically

#### 5 SECTION 5: FIREFIGHTING MEASURES

#### 5.1 Extinguishing media

Suitable extinguishing media:

Co-ordinate fire-fighting measures to the fire surroundings water spray, foam, dry extinguishing powder, carbon dioxide (CO2)

Unsuitable extinguishing media:

Jet water.

#### 5.2 Special hazards arising from the substance or mixture

During the fire, the product may produce harmful gases. Do not inhale combustion products, they can be dangerous for human health

#### 5.3 Advice for firefighters

Personal protection typical in case of fire. Do not stay in the fire zone without self-contained breathing apparatus and protective clothing resistant to chemicals. Do not let extinguishing water to reach drainage system, surface water and groundwater. Collect used extinguishing media.

#### 6 SECTION 6: ACCIDENTAL RELEASE MEASURES

#### 6.1 Personal precautions, protective equipment and emergency procedures

For non-emergency personnel: Limit the access for the outsiders into the breakdown area, until the suitable cleaning operations are completed. In case of large spills, isolate the affected area. Avoid direct contact with releasing product. Avoid breathing vapors. Use personal protective equipment. Avoid contact with eyes and skin. Provide adequate ventilation. Remove all sources of ignition, extinguish flames, prohibit smoking. Danger of slipping on spilled product. For emergency responders: ensure that only the trained personnel removes the effects of the accident. Use personal protective measures.

#### 6.2 Environmental precautions

In case of release of large amounts of the mixture, it is necessary to take appropriate steps to prevent it from spreading into the environment. Do not let the product to get to the sewage system. Notify relevant emergency services.

#### date of issue: 20.09.2023

VERSION: 1.0/EN

### **Coving Mortar ES Component B**

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

#### 6.3 Methods and material for containment and cleaning up

Large spill: isolate the place of liquid accumulation, pump away the collected liquid. Small spill: collect with incombustible materials which absorb liquids (for example: sand, soil, universal firming agents, silica, vermiculite, etc.) and place in labeled containers. Treat the collected material as waste. Clean and ventilate the affected area

#### 6.4 Reference to other sections

Personal protective equipment: see section 8. Incompatible materials: see section 10. Disposal considerations: see section 13.

#### 7 SECTION 7: HANDLING AND STORAGE

#### 7.1 Precautions for safe handling

Avoid contact with skin and eyes. Do not breathe mist/vapors/spray. Handle product only in closed system or provide appropriate exhaust ventilation. Use spark-proof tools and explosion-proof equipment. Use only non-sparking tools. Keep away from open flames, hot surfaces and sources of ignition.

#### 7.2 Conditions for safe storage, including any incompatibilities

Keep in a dry, cool and well-ventilated place. Refer product specification and/or product label for specific storage temperature requirement. Keep container tightly closed. Keep away from heat, sparks and flame. Do not store with incompatible materials (see subsection 10.5).

#### 7.3 Specific end use(s)

No information on applications other than those listed in subsection 1.2.

#### 8 SECTION 8: EXPOSURE CONTROLS/ PERSONAL PROTECTION

Germany (DFG)	(1) Inhalab'	le fraction and	vapour (2) Skin	(3) 15 minutes average value	

#### Recommended monitoring procedures

Procedures shall be in place to monitor the air concentrations of hazardous components and, where available and justified at the workplace, to control the cleanliness of air in the workplace in accordance with relevant Polish or European Standards, taking into account the conditions at the exposure site and the appropriate measurement methodology adapted to the working conditions. The mode, type and frequency of tests and measurements should meet the requirements of the Ordinance of the Minister of Health of 2 February 2011 (OJ No. 33, item 166).

#### 8.2 Exposure controls

#### 8.2.1 Appropriate engineering controls

Use the product in accordance with good occupational hygiene and safety practices. When handling do not eat, drink or smoke. Before break and after work wash hands carefully. Avoid eye contamination and prolonged skin contact. Do not inhale vapors. Ensure adequate ventilation in order to maintain the concentration of harmful factors below the limit values

date of issue: 20.09.2023

VERSION: 1.0/EN

### **Coving Mortar ES Component B**

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

#### 8.2.2 Individual protection measures, such as personal protective equipment

#### Hand and body protection

Use gloves resistant to chemicals. Recommended glove [nitrile rubber] In case of short-term exposure wear the protective gloves with protection level 2 or higher (breakthrough time > 30 min). In case of long-term exposure wear the protective gloves with protection level 6 (breakthrough time > 480 min). Wear protective clothing and shoes – resistant to chemicals

When using protective gloves during work with chemical products, it should be noted that the efficacy levels and corresponding breakthrough times do not indicate actual times of protection at a particular workplace, because the protection can be affected by many factors, e.g. temperature, other substances etc. If there are any signs of degradation, damage or change in appearance (colour, flexibility, shape), it is recommended to replace the gloves with a new pair. Please follow the manufacturer's instructions, not only in terms of gloves' usage, but also in terms of their cleaning, maintenance and storage. It is also important to know how to take off the gloves in order to avoid hands contamination.

#### Eye/face protection

Use protective glasses, if there is a risk of eye contamination It is recommended to equip the workplace with a water shower for rinsing eyes.

#### Respiratory protection :

Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use

Personal protective equipment must meet requirements of directive 89/686/CE. Employer is obliged to ensure equipment adequate to activities carried out, with quality demands, cleaning and maintenance

#### 8.3 Environmental exposure controls

Avoid release to the environment, do not enter the sewage system. Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation

### **Coving Mortar ES Component B**

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

#### 9.2.2 **Other safety characteristics**

Information unavailable

#### 10 SECTION 10: STABILITY AND REACTIVITY

#### 10.1 Reactivity

No reactivity under recommended storage and handling conditions.

#### **10.2 Chemical stability**

Stable under recommended storage and usage conditions.

### **10.3 Possibility of hazardous reactions**

Stable under normal conditions of use and storage

### 10.4 Conditions to avoid

Information unavailable

#### **10.5** Incompatible materials

Sodium chlorate. Organic acids (e.g. acetic acid, citric acid, etc.). Mineral acid The product causes slow corrosion of copper, aluminum, zinc and galvanized surfaces. Reaction with peroxides may cause the peroxide to decompose rapidly and create an explosion hazard. Carefully! N-Nitrosamines, many of which are considered potentially carcinogenic, may be formed when the product comes into contact with nitric acid, nitrites or atmospheres with high concentrations of nitrous oxide. Nitrous acid and other nitrosating agents. Reactive metals (e.g. sodium, calcium, zinc, etc.). Substances that react with hydroxyl compounds. Oxidizing agents

#### 10.6 Hazardous decomposition products

Depending on the decomposition conditions, complex mixtures of chemical substances can be released: carbon dioxide (CO2), carbon monoxide and other organic compounds. Reference to other sections: 5.2.

#### 11 SECTION 11: TOXICOLOGICAL INFORMATION

11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008 **Toxicity of components Benzyl alcohol** LD50 Dermal Rabbit 2000 mg/kg -LD50 Oral Rat 1230 mg/kg Formaldehyde, polymer with benzamine, hydrogenated LD50 (Rat): 2,108 mg/kg **Toxicity of mixture** ATE MIX oral (mg / kg): ~470-480 Harmful if swallowed ATE MIX dermal (mg/kg): >2000. The mixture does not contain substances classified in this hazard class. ATE MIX inhalation (mg / I / 4h): ):~32-34 [mist]. The mixture does not contain substances classified in this hazard class. \*ATEmix value was calculated using relevant converted acute toxicity point estimate included in 3.1.2 table from Regulation 1272/2008/EC Skin corrosion/irritation: Causes severe skin burns Serious eye damage/irritation : Causes serious eye damage Respiratory or skin sensitisation May cause an allergic skin reaction Germ cell mutagenicity Based on available information, classification criteria are not met. **Carcinogenicity Page** <u>8 / 13</u>

date of issue: 20.09.2023

VERSION: 1.0/EN

### **Coving Mortar ES Component B**

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC. Reproductive toxicity Based on available information, classification criteria are not met. STOT-single exposure: Based on available information, classification criteria are not met. STOT-repeated exposure; May cause damage to organs through prolonged or repeated exposure Aspiration hazard Based on available information, classification criteria are not met. Delayed and immediate effects as well as chronic effects from short and long-term exposure Contact with skin: Redness, pain, severe burns, tissue necrosis. May cause an allergic skin reaction Contact with eye: Serious burns, cornea and conjunctiva damage leading to irreversible vision loss and even blindness. Harmful if swallowed Causes severe burns of the mouth, throat, stomach, severe Ingestion: gastrointestinal tissue damage (risk of perforation) can lead to death. Symptoms: severe pain, vomiting, diarrhea, low blood pressure, symptoms of damage can occur several days after exposure

Inhalation: Harmful if inhaled Causes serious damage to the upper respiratory tract, burns, possible chemical pneumonitis and pulmonary oedema. May cause respiratory irritation

#### 11.2 Information on other hazards

11.2.1 Endocrine disrupting properties

The components of the mixture do not affect the functioning of the hormonal system in accordance with the evaluation criteria defined in the Regulations: (EC) No 1907/2006, (EU) 2017/2100, (EU) 2018/605

11.2.2 Other information

Not applicable to substances

#### 12 SECTION 12: ECOLOGICAL INFORMATION

#### 12.1 Toxicity

Harmful to aquatic life with long lasting effects.

In order to minimise long-term global pollution, this should be considered:

- Reducing the use of products and disposable packaging.
- Participation in recycling activities
- Do not allow product to enter water, sewage or soil

#### 12.2 Persistence and degradability

No data available

#### 12.3 Bioaccumulative potential

#### No data available

#### 12.4 Mobility in soil

The mobility of the substance depends on their hydrophilic and hydrophobic properties and abiotic and biotic conditions of soil, including its structures, climatic conditions, seasons (in Poland, in a variable moderate climate) and soil organisms, mainly (bacteria, fungi, algae, invertebrates).

#### 12.5 Results of PBT and vPvB assessment

PBT/vPvB assessment not available as chemical safety assessment not required/not conducted.

#### 12.6 Endocrine disrupting properties

The product shall not contain ingredients included on the list established in accordance with Article 59(1) as having endocrine disrupting properties or ingredients with endocrine disrupting properties according to the criteria laid down in Regulation 2017/2100/EU or Regulation 2018/605/EU in concentrations equal to or greater than 0.1%.

date of issue: 20.09.2023

VERSION: 1.0/EN

### **Coving Mortar ES Component B**

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

#### 12.7 Other adverse effects

The mixture is not classified as hazardous to the ozone layer. There should be considered the possibility of other harmful effects of the individual components of the mixture on the environment. (eg. the ability of disrupting endocrine, the impact of global warming potential).

#### 13 SECTION 13: DISPOSAL CONSIDERATIONS

#### 13.1 Waste treatment methods

<u>Disposal methods for the product:</u> dispose in accordance with applicable regulations. Do not introduce into drains. Residues store in sealed, steel containers.

<u>Disposal methods for used packing</u>: reuse/recycle/eliminate empty containers in accordance with the local legislation. Only completely emptied packaging can be recycled. Legal basis: Directive 2008/98/EC, 94/62/EC.

#### 14 SECTION 14: TRANSPORT INFORMATION

14.1	UN number or ID number ADR/ARID/IMDG/IATA: UN2735	
14 2	UN proper shipping name	
17.6	ADR/RID/ IMDG/IATA: AMINES, LIQUID, C	
	274: Formaldehyde, polymer with benzen	
14.3	Transport hazard class(es)	
	ADR/RID/ IMDG/IATA: 8	
14.4	Packing group	
	ADR/RID/ IMDG/IATA: III	
14.5	Environmental hazards	
	ADR/RID/ IMDG/IATA: Product is not class	sified as dangerous for the environment in accordance with transport
	regulations	
14.6	Special precautions for user	
	ADR	
	Tunnel restriction code	[E]
	Transport category	3

### **Coving Mortar ES Component B**

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

Excepted quantities (IATA) :	E1
Limited quantities (IATA) :	Y841
Limited quantity Passenger (IATA):	1L
Packing instructions: (IATA) :	852
Max. quantity net (IATA) :	5L
<u>IATA (Cargo)</u>	
IATA-packing instructions - Cargo:	856
IATA-max. quantity - Cargo:	60L
ERG code (IATA) :	8L

#### 14.7 Maritime transport in bulk according to IMO instruments

The cargo is not intended to be carried in bulk.

#### 15 SECTION 15: REGULATORY INFORMATION

#### **15.1** Safety, health and environmental regulations/legislation specific for the substance or mixture <u>Other legislation:</u>

- 1. **1272/2008/EC** of the Regulation of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures amending and repealing Directive 67/548/EEC and 1999/45/EC, and Regulation (EC) No 1907/2006.
- 2018/669/UE Commission Regulation (EU) 2018/669 of 16 April 2018 amending, for the purposes of its adaptation to technical and scientific progress, Regulation (EC) No 1272/2008 of the European Parliament and of the Council on classification, labelling and packaging of substances and mixtures Text with EEA relevance.
- 3. **790/2009/EC** of 10 August 2009 amending, for the purposes of its adaptation to technical and scientific progress, Regulation (EC) No 1272/2008 of the European Parliament and of the Council on classification, labelling and packaging of substances and mixtures.
- 4. **2008/98/EC** Directive of the European Parliament and of the Council of 19 November 2008 on waste and repealing certain Directives
- 5. **94/62/EC** Commission Directive 2013/2/EU of 7 February 2013;amending Annex I to Directive 94/62/EC of the European Parliament and of the Council on packaging and packaging waste
- 2015/830/EU Commission Regulation (EU) 2015/830 of 28 May 2015 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

#### 15.2 Chemical safety assessment

The supplier has not assessed chemical safety It is not required for the mixture.

#### 16 SECTION 16: OTHER INFORMATION

#### **Other sources of information:**

IUCLID Data Bank (European Commission – European Chemicals Bureau). ESIS – European Chemical Substances Information System (European Chemicals Bureau).

# Safety Data Sheet made by: mgr Małgorzata Krenke; Feed Reach Consulting" www.frc.com.pl Disclaimer

The information above is based on a current available data concerning the product, but also on the experience and knowledge in this field of the producer. They are neither a quality description of the product nor a guarantee of particular features. They are to be treated as aid to safety in transport, storage and usage of the product. That does not free the user from the responsibility of improper usage of the information above and also of improper compliance with the law norms in the field

## **Coving Mortar ES Component B**

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

Classification according to Regulation (EC) No 1272/2008			
Skin Corr. 1B	H314	calculation method	
Acute Tox. 4	H302	calculation method	
Skin Sens 1	H317	calculation method	
Aquatic Chronic 3	H412	calculation method	
Eye Dam. 1	H318	calculation method	
STOT RE 2	H373	calculation method	

#### H (hazard) phrases specified in point 2 and 3 hereof:

H302	Harmful if swallowed
Acute Tox 4	Acute toxicity (oral), Hazard Category 4
H318	Causes serious eye damage
Eye Dam 1	Serious eye damage/eye irritation, Hazard Category 1
H314	Causes severe skin burns and eye damage
Skin Corr. 1B	Skin corrosion/irritation, Hazard Category 1, Sub-Categories 1B
H317	May cause an allergic skin reaction
Skin Sens. 1	Sensitisation — Skin, hazard category 1, 1A, 1B
H332	Harmful if inhaled
Acute Tox4	Acute toxicity (inhal.), Hazard Category 4
H373	May cause damage to organs
STOT RE 2	Specific target organ toxicity —Repeated exposure, Hazard Category 2
H412	Harmful to aquatic life with long lasting effects
Aquatic Chronic 3	Hazardous to the aquatic environment — Chronic Hazard, Category 3

#### **Explanation of returns**

Explanation of re-	
ADN	Accord européen relatif au transport international des marchandises dangereuses par voies de navigation intérieures (European Agreement concerning the International Carriage of Dangerous Goods by Inland Waterways)
ADR	Accord européen relatif au transport international des marchandises dangereuses par route (European Agreement concerning the International Carriage of Dangerous Goods by Road)
CAS	Chemical Abstracts Service (service that maintains the most comprehensive list of chemical substances)
CLP	Regulation (EC) No 1272/2008 on classification, labelling and packaging of substances and mixtures
CMR	Carcinogenic, Mutagenic or toxic for Reproduction
DGR	Dangerous Goods Regulations (see IATA/DGR)
DMEL	Derived Minimal Effect Level
DNEL	Derived No-Effect Level
EH40/2005	Workplace exposure limits (http://www.nationalarchives.gov.uk/doc/open-government- licence/)
EINECS	European Inventory of Existing Commercial Chemical Substances
ELINCS	European List of Notified Chemical Substances
GHS "	Globally Harmonized System of Classification and Labelling of Chemicals" developed by the United Nations
IATA	International Air Transport Association
IATA/DGR	Dangerous Goods Regulations (DGR) for the air transport (IATA)
ICAO	International Civil Aviation Organization

### **Coving Mortar ES Component B**

in accordance the Commission Regulation (EU) No **2020/878** of 18 June 2020 amending Annex II to Regulation (EC) No 1907/2006 of the European Parliament and of the Council concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

IMPC	Laterative differentiation in the Constant Constant
IMDG	International Maritime Dangerous Goods Code
index No	the Index number is the identification code given to the substance in Part 3 of Annex VI to
	Regulation (EC) No 1272/2008
MARPOL	International Convention for the Prevention of Pollution from Ships (abbr. of "Marine
	Pollutant")
NLP	No-Longer Polymer
PBT	Persistent, Bioaccumulative and Toxic
PNEC	Predicted No-Effect Concentration
REACH	Registration, Evaluation, Authorisation and Restriction of Chemicals
RID	Règlement concernant le transport International ferroviaire des marchandises Dangereuses
	(Regulations concerning the International carriage of Dangerous goods by Rail)
STEL	short-term exposure limit
SVHC	Substance of Very High Concern
TWA	time-weighted average
VOC	Volatile Organic Compounds
vPvB	very Persistent and very Bioaccumulative
WEL	workplace exposure limit

#### Training

Prior to working with the product you should be familiar with safety rules for handling the chemicals, in particular take proper workplace training. **People associated with the transport of hazardous materials in accordance with ADR** should be adequately trained to perform their duties (general training, bench and safety).
