4 SECTION 4: FIRST AID MEASURES

4.1 Description of first aid measures

Inhalation: If symptoms occur, move the affected person to fresh air and keep them at rest. If symptoms persist, seek medical advice.

Skin contact: Immediately remove contaminated clothing. Rinse skin thoroughly with plenty of water for at least 15 minutes. Do not rub the affected area. Apply a sterile dry dressing. Consult a physician immediately.

Europox TF Component BPrepared in accordance with Regulation (EU) **2020/878** amending Annex II to REACH (Regulation (EC) No 1907/2006)

Eye contact: Rinse immediately with plenty of water for at least 15 minutes, keeping eyelids open. Remove contact lenses if present and easy to do. Avoid rubbing eyes. If irritation persists, consult an ophthalmologist.

Ingestion: Do not induce vomiting. Rinse mouth with water (only if the person is conscious). If symptoms develop, seek medical attention and show the container or safety data sheet.

4.2 Most important symptoms and effects, both acute and delayed

The most important known symptoms and effects are described in Section 2.2 (label elements) and Section 11 (toxicological information). Skin contact may cause severe chemical burns, pain, tissue necrosis, and scarring. Eye contact may result in serious eye damage, including irreversible vision loss. Symptoms may be delayed.

Eye/face protection: Wear tightly fitting safety goggles or glasses in accordance with EN 166.
Skin protection: Use chemical-resistant protective gloves. Recommended glove material: nitrile rubber. For short-term contact, use protective gloves with a protection level of at least 2 (breakthrough time > 30 minutes according to EN 374). For prolonged contact, use protective gloves with protection level 6 (breakthrough time > 480 minutes). Wear protective clothing and footwear resistant to chemicals.
Respiratory protection: If ventilation is insufficient, use appropriate respiratory protection (e.g., mask with A1/P2 filter).
Hygiene measures: Do not eat, drink or smoke when using the product. Wash hands before breaks and after finishing work.

8.3 Environmental exposure controls

Avoid release to the environment, do not enter the sewage system. Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation
